STRATFORD RURAL SCHOOLS FEDERATION

PARENT & PUPIL GUIDE – Logging on and installing TEAMS onto your laptop

Go to welearn365.com and choose your school from the drop down box.

Once you have signed in using your usual credentials click the 9 dots in the top left and choose "Microsoft Teams"

Click on the icon at the bottom left to download and install the app.

You now have a nice, shiny new application to work with. Obviously your Teams screen will look different to this one.
